

# **A Vision for Long-Term Care**

**Robyn I. Stone DrPH**

**Executive Director, Institute for the Future of Aging Services (IFAS)  
Senior Vice President of Research, American Association of Homes  
and Services for the Aging (AAHSA)**

**16th Annual Princeton Conference**

**Princeton, NJ**

**May 21, 2009**

**“The more sand has  
escaped from the  
hourglass of our life, the  
clearer we should see  
through it.”**

Jean-Paul Sartre

# Defining Long-Term Care

- **Blurred boundaries between acute, primary, chronic LTC and preventive services**
- **Focus on function, well-being, health status**
- **Broad range of services and supports**
- **Housing and services equally important**
- **Formal and informal care**

# **Factors Influencing Our World View**

- **Demographics (Aging and Immigration)**
- **Economics**
- **Globalization**
- **Technology**
- **Values**

# Total Projected Elderly Population in U.S. through 2050

# Population Aged 65+ by Race and Hispanic Origin: 2003, 2030, and 2050 (Percent)

Source: US Census Bureau

# Minority Elderly (2005)

# Projections of the Number of People Age 65+ Who Will Need Long-Term Care

Source: Congressional Budget Office (1999)

## Number of People with Alzheimer's Disease, by Age Group (in Millions)

Year	Age 65-74	Age 75-84	Age 85+	Total
2010	0.3	2.4	2.4	5.1
2020	0.3	2.6	2.8	5.7
2030	0.5	3.8	3.5	7.7
2040	0.4	5.0	5.6	11.0
2050	0.4	4.8	8.0	13.2

Source: National Institute on Aging

# Oldest States

1995		2025	
<u>States</u>	<u>% of 65+</u>	<u>States</u>	<u>% of 65+</u>
1. Florida	18.6%	1. Florida	26.3%
2. Pennsylvania	15.9%	2. West Virginia	24.9%
3. Rhode Island	15.8%	3. Montana	24.4%
4. West Virginia	15.3%	4. Oregon	24.2%
5. Iowa	15.2%	5. Arkansas	23.9%

# **Givens in 2030**

- **Population aging (wide geographic variation)**
- **Younger disabled surviving birth, extended longevity**
- **Increasing gap between haves/have-nots**
- **Increased ethnic/cultural diversity among consumers/caregivers**
- **Six-generation families in the norm**

# **Givens in 2030** cont'd

- **Young-old vs. Old-old**
- **Decreased availability of traditional low wage workforce**
- **More proactive/demanding consumers**
- **Transportation problems**
- **Lack of affordable senior and disabled housing**
- **Retirement is reinvented**

# Uncertainties

- **LTC financing-relative roles of public and private sector**
- **Role of biotech, IT, pharmacotech, etc**
- **Adoption of universal design**
- **Effects of globalization on workforce**
- **Role of terrorism, natural disasters and pandemics**

# **Triple Knot of Aging Services**

- **Financing**
- **Delivery (Care Settings)**
- **Workforce (Formal and Informal)**

# Emerging Issues/Trends

- **State rebalancing of Medicaid dollars toward home and community-based services**
- **Consumer direction in home and community based services**
- **Culture change in nursing homes**
- **Expansion of residential alternatives – how affordable?**

# **Emerging Issues/Trends**

## **Cont'd**

- **Managed LTC**
- **Integration of acute, chronic and LTC**
- **Transitional Care**
- **Workforce/Talent Development**
- **Quality assurance and improvement**

# My Wish list for 2030

# Financing in 2030

- **Similar to German LTC insurance model**
  - **Everyone pays in through premiums**
  - **Everyone covered who meets functional eligibility**
- **Modest coverage; private wrap-around policies available**

# **Financing in 2030** Cont'd

- **Disability (consumer-directed) model provides cash for services (\$ follows the person)**
- **Room and board partially subsidized**
- **States perform eligibility determination, service plans, safety net for poor.**
- **Built around family care**

# LTC Delivery System

- **Range of home and community-based services**
- **Nursing homes for post-acute & end of life care**
- **Residential options (affordable AL, housing w/services)**
- **Technology improves home-based care**
- **Increased focus on primary/secondary prevention**

# Devolution to Communities

- **Planning and implementation at community level**
- **Services and supports built around informal or formal NORCs (population-based service delivery)**
- **Standardized electronic records facilitate integration of acute, primary and LTC**
- **Increased consumer choice facilitated by availability of comparative quality information**

# **Future of the Workforce**

- **State provides incentives to create new paradigm for LTC nursing**
- **Expansion of frontline caregiver pool includes older workers and former family caregivers**
- **Federal and state incentives to develop geriatric/gerontological training for all LTC professionals (physicians, nurses, therapists, administrators)**
- **Cross-training and cross-certification allows staff to work in multiple settings**
- **Local community hubs provide training for family caregivers**

***“There’s no use trying,” she said: “one can’t believe impossible things.”***

***“I dare say you haven’t had much practice”, said the Queen. “When I was your age, I always did it for half-an-hour a day. Why sometimes I’ve believed as many as six impossible things before breakfast.”***

**Alice and the White Queen  
“Through the Looking-Glass”**
