Medicaid Reform in Kentucky

WHY: Unsustainable Growth, Poor Outcomes

- **High poverty and Medicaid enrollment**
- **Poor health outcomes despite high spending**
- **No long-term financing plan**
 - **\$1.2 billion** projected spending on expanded Medicaid over SFY 2017-2021

Every \$1 we spend on expanded Medicaid is \$1 we cannot spend on coverage for pregnant women, children, and individuals who need Medicaid due to age, blindness, or having a disability.

WHY: Other Factors Affect Health

Social Determinants of Health

Economic Stability	Neighborhood and Physical Environment	Education	Food	Community and Social Context	Health Care System
Employment	Housing	Literacy	Hunger	Social integration	Health coverage
Income	Transportation	Language	Access to healthy options	Support systems	Provider availability
Expenses	Safety	Early childhood education		Community engagement	Provider linguistic and cultural competency
Debt	Parks	Vocational training		Discrimination	Quality of care
Medical bills	Playgrounds	Higher education			
Support	Walkability
